

BRIDGING WALLS

The Brazos Valley Worldfest Education Program celebrates the 20th anniversary of the fall of the Berlin Wall. As our world continues to put up walls and fences to divide its people, recognizing the connection between nations, races, and peoples helps to create understanding and unity. Worldfest welcomes projects that promote and embody cross-cultural understanding using multi-media, artwork & sculpture, photography, poetry, writing or research.

Education projects will be on display during BVWF at The Arts Council of the Brazos Valley
All participants will receive recognition.

To Submit a Project:

--Participants must submit a *project submission form*, a signed *permission form*, and a *project discussion paragraph*. The project discussion paragraph should explain the project's purpose and how it relates to the project theme: *Bridging Walls, Connecting Cultures*. Forms are available online at <http://brazosvalleyworldfest.org/education.html>

--Projects and completed forms must be delivered by mail or in person to the Office of International Outreach at Texas A&M University by November 2, 2009.

education program

International awareness is at the heart of Brazos Valley Worldfest, and is the goal of the Education Program. As students understand world cultures, they break down cultural assumptions and develop cultural understanding. Teachers, parents and students are together investing in a future of cross-cultural acceptance.
